

SAFETY IS A **shared** RESPONSIBILITY

To ensure the continued good health and safety of our patients, employees, and the community, Sharon E. Selinger, M.D., P.A. & Associates has taken several precautionary steps in response to the Coronavirus (COVID-19) outbreak to follow the [CDC guidelines](#).

THE OFFICE

We have been conducting tele-visits since late March and are beginning to add in-person visits as medically necessary according to CDC guidelines. We appreciate your patience and flexibility in allowing us to care for you remotely.

You may continue to obtain lab surveillances in preparation for your tele-visit. Our laboratory partners, [LabCorp](#) and [Quest Diagnostics](#), have also taken steps to ensure your safety.

Please click [here](#) for information on Labcorp's Patient Service Center Initiatives.

Please click [here](#) for information on Quest's Peace of Mind Program.

If you do not feel comfortable going for lab work, please contact our office as soon as possible before your visit.

TELE-VISIT TIPS

You will be contacted (1) day prior to your scheduled visit by a staff member who will confirm your availability, insurance, and contact method for the tele-visit. We strongly urge you to keep your scheduled tele-visit so the doctor may see you and best determine the next steps of your care.

Please be prepared to email or fax any updated insurance information. The staff member will help you decide the best way to get the information to us.

If you are not contacted at the exact time of your appointment, that simply means the doctor has not yet finished up with the previous appointment. Please be patient and allow the doctor a few minutes more to contact you.
